About me

○ I discovered my passion for programming during my time in middle school. In high school, I chose to study mathematics and informatics, and later, I decided to pursue a college degree in computer science. Beyond my formal education, I diligently pursued self-directed learning, acquiring invaluable expertise through freelancing endeavors. I consider myself being a fast learner and a curious person.

Education

Babes-Bolyai University, Romania   *Oct 2023 - Present*
Bachelor's Degree in Computer Science

  ○ **Relevant Coursework:** Data Structures and Algorithms, Computer System Architecture, Object Oriented Programming, Fundamentals of Programming, Operating Systems, Graphs Algorithms, Computational Logic.

TECHNICAL UNIVERSITY OF CLUJ NAPOCA   *Oct 2022 - Oct 2023*
Electronics, Telecommunications and Information Technology

  ○ After completing one year at this faculty, I came to the realization that the program did not meet my expectations in terms of its academic standards. Consequently, I made the decision to transfer to another esteemed institution, specializing in computer science, where I could pursue a **more comprehensive and challenging education** in the field.

National College of Andrei Muresanu   *Sep 2018 - July 2022*
Mathematics and Computer Programming

  ○ **Baccalaureate:** Computer Programming (9.4/10), Mathematics (9.3/10)
  ○ **Excellent grades** in every semester at Computer Programming, passing each one with a perfect score (10/10)

Experience

FREELANCE FULL STACK WEB DEVELOPMENT Github ↗   *Romania, Remote*
Federatia Patronatelor din Industriile Creative   *June 2023 - July 2024*

  ○ Lead the development of a sophisticated main website utilizing PHP to achieve complex functionalities.
  ○ Implemented a comprehensive Blog Posting feature with administrative control accessible through an advanced Admin Panel, equipped with diverse possibilities and algorithms.
  ○ Designed and developed an efficient Admin Panel (ERM and CRM) to manage partner organizations, statistical data, and developer updates.

FREELANCE FULL STACK WEB DEVELOPMENT   *Romania, Remote*
Zappnet România Website ↗ Github ↗   *June 2018 – May 2023*

  ○ Collaborated with the client to enhance an existing website based on a purchased theme with a control panel, implementing custom modifications to meet specific requirements
  ○ Revamped the Admin Control Panel, optimizing its functionality and user experience for clients.
  ○ Provided dedicated support to clients, effectively addressing and resolving any website-related issues promptly.
  ○ Proactively identified and fixed bugs to maintain a smooth and error-free user experience

FREELANCE FULL STACK WEB DEVELOPMENT   *Romania, Remote*
Flaely Website ↗ Github ↗   *June 2019 – May 2020*

  ○ Developed an employee supervising application (ERM) for the client.
  ○ Built the main website for users with sections including Home, About, Portfolio,Services, and Contact.

Personal Projects

CZR Solutions *Website* ↗

- ○ Founded and officially registered a web development company with the National Trade Registry Office in Romania, specializing in creating websites for businesses. Designed and developed the company's website to showcase services and capabilities

Skills
